PROJECTS

• URL Shortener

PERN Stack

A web application that shortens long URLs and allows logged-in users to track their links

- Built with React.js, Tailwind CSS, Node.js, Express.js, and PostgreSQL, ensuring a modern and responsive UI
- Secure authentication using bcrypt.js for password hashing, JWT for tokens, with Sequelize ORM for efficient database management
- Provides both guest mode for quick access and user mode with some extra features
- GitHub Repo: github.com/raahthor/url-shortener

• Portfolio Website

React App

A Personal portfolio website showcasing my skills, projects, and experience in full-stack web development

- Built with React.js as a Single Page Application (SPA), ensuring smoother navigation, fast loading, and optimized accessibility
- Fully responsive design, providing a seamless experience across all devices, with dark and light mode support for better user experience
- Live: [Portfolio Website](#)
- GitHub Repo: github.com/raahthor/portfolio-website

EDUCATION
